API Testing / Postman

Courses

Machine Learning, Stanford, 2024
DeepLearning.AI
WebdriverIO, Udemy, 2021
System Analyst, Alfa-Bank, 2019
Web Developer, Geekbrains, 2017
Software Testing, QA Test Lab, 2014

About Me

Experienced QA Engineer with 10 years in the industry and 3 years in test automation. Achieved consistent success in delivering high-quality results with attention to detail and a strong focus on accuracy. Skilled in leading small teams and excellent communication abilities. Proficient in using Playwright (TypeScript) for automation testing.

Work Experience

LEAD QA ENG / AUTOMATION QA ENG 2022 - Present
GOSTUDENT, VIENNA

Led testing efforts and optimized QA processes. Conducted functional, regression, usability, and localization testing of web applications. Developed test cases, automated tests, and controlled the execution of bug reports. Collaborated closely with development teams, DevOps, and PMs to enhance testing efficiency and address defect corrections. Managed a small team and onboarded developers to enable them to write their own tests.

QA LEAD 2021 - 2022
HAPPY CORP, MOSCOW

Organized and implemented manual and automated testing processes. Conducted functional, regression, usability, and localization testing of web and mobile applications (iOS, Android). Developed test cases, automated tests, and maintained test documentation. Coordinated with DevOps, PMs, and developers to ensure efficient testing and issue resolution.

SENIOR SYSTEMS ANALYST 2019 - 2021
ALFA-BANK, MOSCOW

Formulated, documented, and coordinated requirements for systems, developed design documents (FSD, OTAR, diagrams, models, specifications, instructions), and participated in testing, implementation, and maintenance processes of systems.

QA LEAD 2019
MADPIE, MOSCOW

Organized testing processes for web and mobile applications (iOS, Android). Developed test cases, managed bug reports, and maintained test documentation. Worked closely with developers, DevOps, and PMs to enhance the quality and speed of testing.

QA ENGINEER 2016 - 2019
GLOBO GAMES, MOSCOW

Handled manual testing for web and mobile applications (iOS, Android). Developed test scenarios, maintained bug reports, and ensured efficient testing processes through close cooperation with developers and other stakeholders.

QA ENGINEER 2015 - 2016
MOB.TRAVEL, MOSCOW

Conducted functional, regression, usability, and localization testing of mobile applications (iOS, Android). Developed test scenarios, maintained bug reports, and controlled execution.

SOFTWARE QA TESTER 2014 - 2015
UTEST, REMOTE

Conducted functional, regression, usability, and localization testing of web and mobile applications (iOS, Android).

JUNIOR SOFTWARE QA ENGINEER 2014
QA TEST LAB, POLTAVA

Performed functional, regression, usability, and localization testing of mobile applications (iOS, Android). Created and maintained test documentation and controlled the execution of bug reports.
